## EDUCATION

---

**Birla Institute of Technology**

2024

*Master in Computer Application*

*Percentage - 68.3*

**MARWARI COLLEGE RANCHI**

June 2022

*Bachelor of Science in Computer Science*

*Perct: 74.73%*

## RELEVANT COURSEWORK

**Courses:** Intro to Programming, Object-Oriented Programming, Data Structures, Embedded Systems, Logic Design, Artificial Intelligence, Machine Learning (In Progress), IT Tools and Techniques

## SKILLS

---

**Languages:** C/C++, Java, Python, JavaScript/TypeScript, HTML/CSS

**Tools:** Git/GitHub, Node.js, VS Code, IntelliJ IDEA, Eclipse

**Frameworks:** React, Node.js

**Familiar:** pandas, NumPy, Scikit-Learn, NLTK, spaCy.

## CERTIFICATIONS

---

### Machine Learning using Python

- Covered comprehensive machine learning concepts, algorithms, and techniques using the Python programming language.
- Explored real-world applications of machine learning, including data preprocessing, model training, and evaluation.
- Gained practical experience in implementing machine learning projects, enhancing skills in data analysis and predictive modeling.

## PROJECTS

---

**To-Do List Web App** | *HTML/CSS, JavaScript, Local Storage*

- Created a web-based to-do list application that allows users to manage their tasks.
- Implemented features to add, mark as completed, and delete tasks.
- Utilized browser's local storage for data persistence.

**Weather App** | *HTML/CSS, JavaScript, Weather API*

- Developed a weather application for checking the current weather of a specified location.
- Integrated with a weather API (e.g., OpenWeatherMap) to fetch and display weather data.

**Blog or Notes App** | *React, Node.js, HTML/CSS*

- Developed a web-based blog or notes application for creating, editing, and deleting posts.
- Implemented CRUD (Create, Read, Update, Delete) operations.
- Used React for the front-end and Node.js for the back-end.

**Hostel Management System** | *HTML/CSS, JavaScript, PHP, MYSQL*

- Designed and developed a Hostel Management System website using JavaScript and PHP.
- Streamlined hostel operations for administrators with features like booking management and check-in control.
- Demonstrated proficiency in web development and practical solutions for efficient hostel management.
